

OZB POLYFILL 90 FILTER

YOUR TRUSTED SOLUTION FOR SUPERIOR FILTRATION EFFICIENCY

Maximize your productivity with the Polyfill 90 Filter, engineered to deliver exceptional performance in a variety of industrial settings. Designed with precision and technical excellence, this filter stands out for its robust features and reliable functionality.

KEY SPECIFICATIONS

- Impressive airflow capacity of up to 6.480m³/h @315 mm H₂O, ensuring optimal air filtration efficiency.
- Ample filtering area of 90m², equipped with a high-quality cartridge type filter element for thorough filtration.
- Built to last with a sturdy carbon steel body and cover, ensuring durability and long-term performance.
- Enhanced control with an electronic card featuring six exit valves, providing precise management of airflow.
- Convenient accessibility with external easy-to-reach valves, simplifying maintenance and operation.
- Powerhouse performance driven by a 15 Hp fan, delivering consistent and efficient filtration power.
- Peace of mind with available spare parts, ensuring uninterrupted operation and minimal downtime.

Versatile applications including batching plants, concrete plants, silo equipment, and various types of conveyors:

- Batching Plants
- Concrete Plants
- Silo Equipment
- Conveyors
- Screw Conveyors
- Cement Screw Conveyors
- Tubular Screw Conveyors
- U-Through Screw Conveyors
- Vertical Screw Conveyors
- Galvanised Screw Conveyors
- Stainless Steel Screw Conveyors

Designed for Efficiency

The Polyfill 90 Filter is engineered to meet the demanding needs of industrial environments, offering unparalleled filtration efficiency and reliability. Whether you're managing batching processes, operating concrete plants, or handling various types of conveyors, this filter ensures clean air and optimal performance.

Enhanced Functionality

Equipped with advanced features such as an electronic card with exit valves and external access points, the Polyfill 90 Filter provides intuitive control and easy maintenance, empowering you to streamline operations and maximize productivity.

Tailored Solutions

With options including a hopper unit and availability of spare parts, our Polyfill 90 Filter can be customized to suit your specific requirements, ensuring seamless integration into your existing setup and long-term performance you can count on.

Experience the Difference

Transform your filtration capabilities with the Polyfill 90 Filter and discover a new standard of efficiency, reliability, and performance in industrial air filtration. Trust in our technical expertise and commitment to quality for all your filtration needs.
